## PROFESSIONAL SUMMARY

Entry-level Data Analyst and BI Developer with hands-on experience in SQL, Power BI, Tableau, and Excel. Built dashboards including a Netflix analytics dashboard in Power BI and an online retail sales dashboard in Excel and completed the IBM Data Analysis certification. Skilled in data cleaning, data visualization, and reporting. Seeking a Data Analyst or BI Developer role to turn data into clear business insights

## INTERNSHIP

**IoT Intern** **May 2025 – June 2025**
**Tarcin Robotics, Madurai**

- Worked with IoT sensors to develop small-scale working model projects.
- Participated in building and testing mini-projects using IoT sensor components.
- Documented project tasks, activities, and work completed during the internship.
- Gained practical exposure to IoT systems, sensor-based applications, and project documentation.

## EDUCATION

**B.Sc. Computer Science (Artificial Intelligence) - With 85%**
**Mannar Thirumalai Naicker College** **Graduated:2026**

## TECHNICAL SKILLS

- **Programming & Query Language:** SQL
- **Data Analysis:** Data Cleaning, Data Transformation, Data Analysis, Data Reporting
- **Microsoft Excel:** Pivot Tables, Charts, Slicers
- **Power BI:** Power Query, DAX, Data Modelling, Dashboard Development
- **Tableau:** Filters, Table Calculations, Window Functions, Dashboard Development
- **Core Skills:** Data Visualization, KPI Analysis

## ACHIEVEMENTS AND CERTIFICATIONS

- Participated in the HCL Hackathon, enhancing analytical thinking and problem-solving skills.
- Completed IBM Data Analysis & Fundamentals Certification.
- Data Analytics Course: SQL, Tableau, Power BI, Excel.
- IoT and Robotics Course Certification

## PROJECTS

- **Netflix Analytics Dashboard | Power BI:** Built an interactive dashboard analysing Netflix content by genre, country, release year, and type (movies vs. TV shows). Cleaned data with Power Query and created DAX measures and slicers to track key metrics and trends.
- **Online Retail Sales Dashboard | Microsoft Excel:** Created an interactive sales dashboard using pivot tables, charts, and slicers. Analysed sales by product, region, and time period to identify top categories and trends.
- **Tableau Dashboard Development | US Superstore Dataset:** Recreated interactive dashboards using filters, table calculations, and window functions to visualize business insights.
- **Agro Intelligent Ecosystem | Final Year Project:** Developed an IoT-based smart agriculture system to collect and monitor real-time environmental sensor data.
